

“Juicy Citrus Pitcher”

1. Dip your sponge into water, squeeze it out, and wipe off your entire pitcher (inside and out, rim, top and bottom) to remove bisque dust.

2. To trace citrus design onto the pitcher:
-- Place a piece of tissue paper over the citrus drawings.
-- Trace the citrus onto the tissue paper with your #2 pencil.
-- Trace the citrus onto the pitcher itself using tissue paper and a Sharpie marker.

3. Paint the citrus fruit THREE COATS of color.
(Let each coat dry completely before adding the next.)

4. Using a squeeze bottle or a tiny paint brush (whichever feels most comfortable), outline each citrus fruit with the coordinating deeper color. NOTE: If you outline with a tiny paintbrush, do three coats for solid coverage. If you outline with a squeeze bottle, do ONE coat – since it goes on thick, it counts as 3 coats.

5. The color combinations are:

LEMONS: Yella Bout It fruit, rimmed with Sunkissed

LIMES: Limelight fruit, rimmed with Sour Apple

ORANGES: Jack-O-Lantern fruit, rimmed with Orange-a-Peel

BREAK TIME: Allow your fruit to thoroughly dry while you enjoy a snack!

6. Paint the inside of the pitcher and the handle 3 coats of MY BLUE HEAVEN. Let each coat dry before adding the next.

7. LAST STEP: Use a squeeze bottle filled with COTTON TAIL to create the “section” lines on the citrus.

Sign your pottery with a paintbrush or glaze pencil, and bring it (and your completed tag) up to the desk.
